roadway from the Lake Shore Drive to the bull pen was begun on the location of what had been an Indian trail.

13. Filtration Plant Road Improvement—completion of a driveway leading from the McKinney Road to the pumping station thus facilitating the handling of chemicals and other necessary supplies for operation of this unit.

14. North Ridge Drive Improvement—surfacing of one mile of roadway from the North end of the Pierce Mill Road to the lodge providing an all-weather entrance to one of the park's finest recreation buildings.

15. Ingomar Road Improvement—relocation and reconstruction of one mile of concrete reinforced 20 feet one-course pavement extending from the Babcock Boulevard westward to the Kummer Road paralleling the South arm of the lagoon.

16. Walter Road Improvement—relocation and rebuilding of the Walter Road for a length of about 600 feet southward from its junction with the Pierce Mill Road to the intersection with Lake Shore Drive. Construction of the North Branch Bridge across Pine Creek, a frame-type concrete designed bridge with U-type abutments.

17. Tennis Court Road Improvement—construction of one-half mile of picturesque driveway from the North Branch Bridge, passing along Pine Creek, the tennis courts, and the boat house to its junction with the Pierce Mill Road.

18. Construction and painting of 52 grove signs, 23 golf signs, 41 archery signs, 5 lodge signs, 40 swimming pool signs, 9 tennis court signs, 11 Recreation Department signs, 70 row boat insignias, 12 cut-out "Starting Line" letters for boat racing, and 30 signs of a miscellaneous nature.

19. Reconstruction of the park saw mill by the installation of new tracks and a loading platform.

20. Repairing and repainting of 50 row boats, mooring of 21 additional new boats on the lagoon thus increasing the park flotilla to 71 row boats in all.

21. Reconstruction of railing and floor on the Marshall Lake Bridge.

22. Maintenance work on 1866 tools including shovels, clay picks, pruning shears, hatchets, saws, scythe blades, chisels, etc., by the park forge shop.

23. Construction of 15 concrete markers around valves on the main park water line.

24. Quarrying of 150 tons of stone from park property for check dams.

25. Casting of 120 concrete barrier posts, 30 pieces of gutter and construction of a span with concrete supports across the Kummer Road creek as an entrance into the "Fountain of Youth."

26. Cutting of 20 tons of hay from park property for park game.

27. Golf Course Improvements—completion of a new driving tee, fertilizing of all fairways, greens and tees, planting of 300 pine trees along the course's boundary, reconstruction of No. 5 and No. 6 greens, completion of a new sod nursery, shaping and sodding of all ditches, construction of a flagstone walk around the new club house, planting of new shrubbery beds, removal of a refreshment stand from No. 13 green to No. 2 green and construction of a concrete pipe barrier on the starter green.

28. Golf Club House Improvements—completion of 450 square feet of stone walk around the club house, installation of kitchen and dining equipment complete with necessary connections, construction of a concrete barrier with pipe railing around the parking area and installation of a 60 foot flag pole.

29. Completion of a road in the rear of the draft horse stable.

30. Construction and installation of a double-drain chemist's cabinet in the filtration plant laboratory.

31. Repairing of 25 sprinkler hydrants at the golf course, 35 grove pumps, 5 house pumps, cleaning of 12 springs, 10 septic tanks, 40 flushometers on park toilets, locating and repairing 5 leaks in the main park water line at the pool, cleaning of intake valve to filtration plant, cleaning of sediment from filtration plant basin, repairing of coagulation pit in the filter room and repairing of underground sewer at the boat house.

32. Placement of 40 new cast iron gratings on park catch basins.

33. Completion of 120 lineal feet of concrete pavement around police cabins, repairing of lodge furnaces, 6 fire places, bath house promenade, construction of new concrete foundations for diving boards, repair of cement work around the pool, construction of 2 new chimneys in the golf course service buildings, completion of an oven for ox roast at the lodge, lining of tile on the floor and walls of the filtration plant lavatory, repairing of two chimneys in the storage buildings and construction of cement troughs at the draft horse stable.

34. Construction of a barrier fronting the boat house by the erection of a pipe railing supported by concrete posts.

35 Installation of 800 feet of gas line into the nursery, installation of 600 feet of gas line into the new golf club house and installation of 400 feet of waste line into refreshment stands at Deer Browse, Old Cherry and swimming pool parking lot.

36. Installation of 75 feet of sewerage line into the police barn and replacement of over 250 feet of sewerage conduit at park dwellings and cabins.

37. Lowering of valve boxes for completion of construction work on the filtration plant road, administration building parking area and tennis court road.

38. Elimination of meters and utility "demand charges" by the erection of a county-owned 2300 volt power line in the vicinity of the new golf club house, girl scouts' cabin, police headquarters and the Parrish Hill area.

39. Renewal of flooring in the draft horse and police barns.

40. Construction of 16 single trees, 6 double trees, 16 brake locks, 4 feed boxes and 5 seats for park wagons.

41. Repairing of 110 park picnic tables, 96 quoit boxes, 58 grove signs, 170 ruling signs and 17 doors on park buildings.

42. General overhauling of park refreshment stands; repairing of counters, doors, and roofs.

43. Construction of 75 flower boxes for the park nursery.

44. Installation of two poles for extension of power and light to the site
